

SEERESS PREDICTED ITALY WOULD FIGHT

Madame De Thebes Said on December 15 Nation Would Enter War.

PARIS, May 21.—In her predictions issued on December 15 last through the United Press, Madame De Thebes, France's famous seeress, forecasted Italy's early entrance into the war. Her prediction concerning Italy was as follows:

"The hour soon will strike when Italy will be compelled to draw her sword. She will be forced so to do. Since it is already known that I was once called to Italy under tragic circumstances to give my humble opinion concerning the destiny of a person high in the human scale, I may say that I have additional reasons for believing in the magnificent future of the reigning house."

"However, danger threatens it. Feminine hate, which nothing disarms, pursues it. There will be abundant tears. There will be great destruction of things—in artistic southern Italy particularly—around the summer solstice."

"For Franz Josef—De Profundis! This sinister old man is even now dead. The world has called him venerable; Vienna knew better of his private life and its scandals. His wife hated him. He was cruel to the point of torture, even with his own son Rudolph, whose death was attributed to him."

"The dismemberment of Austria is imminent. The Slavs will separate from the German element, the latter joining with Catholic Germany."

PUBLIC SCHOOL FIELD DAY THIS AFTERNOON

Owing to the rainy weather yesterday afternoon, the field day of the public schools has been postponed to this afternoon at 3. In spite of threatening clouds, the children were assembled at American League park ready to begin the program at the appointed time yesterday when the rain deluged the ground and their hopes.

Nearly 6,000 children are to take part in the festival and several of the numbers will be given in costume. Members of the physical training corps of eight young women under the direction of Dr. Rebecca Stonerod have been rehearsing drills and dances for the past three months.

Reports Submarine F-4

Lifted Clear of Bottom

The Navy Department today received the most encouraging advices yet concerning the submarine F-4. Rear Admiral Moore, at Honolulu, reports that four slings have been successfully attached, and that the submarine has been lifted clear of the bottom.

The fourth sling, which is attached to the rear part of the F-4, was raised twenty feet. This gives hope that the craft will soon be brought to the surface.

TAXES HERE SHOW ERA OF PROSPERITY

Million and a Half Paid in Since November 1, and Collections Are Growing.

Tax collections indicate that Washington has entered upon an era of prosperity. Taxes on both real and personal property are due in May, a penalty of 1 per cent a month occurring after June 1.

Since November 1 property owners have paid into the coffers of the District government \$1,500,000 and the collections are increasing daily.

Yesterday's payments amounted to \$116,000. The realty tax levy totals approximately \$5,800,000 an increase of \$600,000 over last year. The personal tax levy amounts to \$1,200,000.

Monday, May 21, being a holiday, the last day for the payment of taxes at the District building before the penalty begins to accrue is May 29. It was announced today, however, by Ben L. Prince, collector of taxes, that checks made payable to the collector and mailed before midnight of May 31 will be accepted.

Owners of real estate have until
